Price : 300.000 €

We offer you the opportunity to live in a spacious apartment located in a quiet part of Poreč, in a dead-end street. The apartment is located on the second floor of the last building, and it is guaranteed peace.

The apartment has a total of 68 square meters of space and consists of a living room, kitchen and dining room that are integrated into an open space, creating the heart of the home where you can enjoy shared moments with family and friends.

The apartment also has one bedroom and a bathroom. Two balconies further enrich the space and provide plenty of natural light. One balcony is connected to the living room and kitchen, while the other offers a private corner from the bedroom.

Additional storage space is provided in the form of a storage room of two square meters in the basement of the building, while parking is available within the building.

An additional convenience of this apartment is the presence of a chimney, giving you the option of using alternative heating methods and creating a pleasant atmosphere during colder days.

In addition to its internal qualities, I want to emphasize that the renovation of the facade of the entire building is planned, which will raise the aesthetic impression and further improve your housing with improved energy efficiency.

This apartment is a great opportunity for an ideal home for your family or as an investment in beautiful Poreč.
